Warranty

Nevers Industries, Maple Grove, MN warrants its products to be free from defects in material and workmanship for a period of 10 years from the date of shipment to the customer.

In the event of making a warranty claim, it is up to the customer to notify Nevers Industries as soon as possible. Nevers Industries reserves the right to examine the warranty claim and provide an appropriate response. Nevers Industries will then, as our sole obligation, either repair or replace parts, materials, components or other directly associated systems provided by Nevers Industries and any other approved incurred expenses due to the warranty issue. In the case of irreplaceable custom materials, unique processes or vendor-supplied components no longer supported, we will provide alternate, yet equal, solutions.

Any structural modification, dismantling and reinstalling, or improper use or storage of our products may void the warranty. Similarly, failure to control the expressed limits of temperature, humidity, or ambient lighting exposure throughout the life of Nevers Industries products may influence any potential indemnity and/or void our warranty. Additionally, our warranty does not cover: damage during shipping caused by a freight carrier; uncontrollable natural variances in wood grain or texture, finish hue or color; and damage from excessive wear (such as, but not limited to, singular or repetitive scratching or denting from jewelry, writing instruments or other such hard objects), misuse, negligence or modification on the part of the customer.

General Specifications

Wood Veneers

Nevers® products are manufactured primarily of Plain Sliced Mahogany, Walnut, Oak, Cherry, Paldao and Maple. Other woods may be specified. Please contact Nevers Industries for price and availability. Veneer panels are laid up with plain sliced faces and are balanced on back to minimize warping and balance stresses.

Wood Surface Cleaning

Wood furniture should be cleaned with a damp, soft cloth, wiping in the direction of the wood grain. Wood surface should then be dried with a dry, soft cloth. Monthly, wood surfaces should be cleaned with a soft cloth using a quality wood cleaner. Following cleaners' directions, slightly dampen soft cloth and wipe in direction of wood grain. Dry the wood surface with a dry, soft cloth. Ammonia or any type of oil should be avoided.

Standard Wood Finishes

Nevers' standard finish is a multi-step process involving dyes, stain, sealer, toner, and lacquer. For added protection and durability, the final topcoat on all tabletops is catalyzed lacquer. All finishes have been formulated for maximum clarity to enhance the natural characteristics of each wood species. Standard finish is open pore. Semi-filled and filled finishes require an upcharge and may extend the lead time. Please contact Nevers Industries for price and delivery date.

Custom Wood Stains and Finishes

Virtually any wood finish or color sample can be matched to your specifications. A finish sample or stain sample is required from the customer before the process of matching approval can begin. The upcharge for custom finishes varies with the type of finish and with the quantity ordered.

Note: COLOR VARIATION WILL OCCUR IN THE GRAIN OF ALL WOOD SPECIES.

This is an inherent characteristic caused by the annual growth rings found in all hardwoods and the way the boards and veneers are cut across these growth rings. In some species, this color variation is very subtle. In other species this color variation is obvious and at times radical.

The process of finishing hardwood veneers determines whether these variations are enhanced or subdued. Natural finishes will show color variations in the grain and enhance the beauty of the wood to its fullest extent. Other stains and finishes tend to blend in these variations to some extent dependent upon the depth of color and the method of application.

IMPORTANT RIO MADERA NOTES:

Rio Madera tables feature centered live edge natural walnut veneer flitches. These flitches are each unique as they are only made to order. As such, they are custom tabletops with special requirements:

- Each live edge log veneer is laid-in to be approximately 1/3rd width of the top. The remaining space is needed for the surrounding veneer flitches.
- Species / finish is limited to natural Walnut. This species presents the most distinct and contrasting sap lines for more appealing tops.
- Live edge flitches are made to order and not inventoried. Your live edge flitch will be hand-selected and prepared for your top. As it is presented as close as possible to its natural state, it will be unique to your table; Nevers will not be able to pre-select exact patterns/contours/widths. Each top is a natural piece of art.
- Delivery times of 8-weeks from the time of clean PO should be expected for production.

It is **HIGHLY recommended** you consult your Nevers Territorial Sales Specialist prior to submitting a quote to your customer.
